POLICY # PA-210

SUBJECT: Financial Assistance Policy (FAP)

PURPOSE:

Frances Mahon Deaconess Hospital (FMDH) is committed to providing access to emergency and medically necessary affordable healthcare services to all patients regardless of their ability to pay. FMDH intends, with this policy, to establish a process for use in circumstances in which Financial Assistance, compliant with all federal, state and local laws, shall be offered to those receiving services.

The policy addresses:

- Patient Notification of Financial Assistance;
- Financial Assistance Eligibility Criteria;
- Instructions for Applying for Financial Assistance;
- Determination and Patient Notification;
- The method of calculating amounts charged to individuals who qualify for assistance under this policy;
- Measures to widely publicize the policy

RESPONSIBILITY:

- Patient Financial Representative (PFR) and Financial Counselor (FC) are responsible for instituting
- Financial Counselor (FC) is responsible for managing the policy.

SCOPE:

- This policy applies to all emergency and medically necessary inpatient and outpatient services provided to patients who qualify for Financial Assistance in accordance with the terms and conditions listed in this policy. For these purposes, the policy also covers the rendering of professional services by physicians and other providers employed or contracted by FMDH, as listed on Attachment #1 of this policy. Any other physician or provider of care at FMDH are not subject to this policy and each patient will be responsible for satisfaction or resolution of any bills issued by such physicians or providers for their professional services.
- FMDH will provide health care services to individuals that are in need of emergency or medically necessary care, regardless of the ability of the patient to pay for such services and regardless of whether such patients may qualify for Financial Assistance under this policy.
- FMDH will not engage in any actions that discourage individuals from seeking emergency medical care, such as by demanding that emergency department patients pay before receiving treatment or by permitting debt collection activities in the emergency department or other areas where such activities could interfere with the provision of emergency care on a non-discriminatory basis.

- Any services that are deemed as not Medically Necessary are not eligible for Financial Assistance.

DEFINITIONS:

- 1. Medically Necessary Health Care Services:** Emergency medical services provided in an Emergency setting, Services for which, if not promptly treated, would lead to an adverse change in the health status of an individual. Non-elective services provided in response to life-threatening circumstances in a non-emergency room setting, and Medically necessary services, evaluated on a case-by-case basis at FMDH's discretion. Attachment #1 of this policy includes a listing of eligible and non-eligible services and providers.
- 2. Amounts Generally Billed (AGB):** Amounts Generally Billed (AGB) means the amounts generally billed for emergency or other medically necessary care to individuals who have insurance covering such care. AGB percentage is determined annually by using a 12 month measurement period utilizing the look back method. The AGB percentage is all claims allowed by Medicare and all private health insurers divided by gross charges for those claims. All claims included those for the Hospital and Glasgow Clinic as well as for Hi-Line Medical Services, as it is a significantly related entity. The measurement period is 7/1 through 6/30 of each year and the start date for the new calculation will be 10/1 of each year which is within the 120 day requirement.
- 3. Completed Application:** A completed Financial Assistance Application (FAA) form, signed and dated, and supporting proof of income.
- 4. Eligibility Period:** The period during which FMDH will accept and process FAAs. This period shall be from the date of service until 240 days after FMDH provides the patient with the first billing statement for the care provided.
- 5. Extraordinary Collection Actions:** Those actions that FMDH may take in event of nonpayment following the expiration of the notification period. These may include referral to an external collection agency, the reporting of adverse information about the individual to consumer credit reporting agencies or credit bureaus, garnishment of an individual's wages, and/or commencement of a legal civil action against an individual.
- 6. Financial Assistance:** Either full or partial reduction in charges to patients for emergency or Medically Necessary Health Care Services, in the case of patients who have qualified for Financial Assistance, Medically Indigent, or are Presumptively Eligible as those terms are defined in this policy. Financial Assistance does not include contractual shortfalls from government programs, but may include insurance co-payments, deductibles, or both.
- 7. Medically Indigent:** If a guarantor's gross annual income falls outside of the matrix but their medical expenses in relation to their income would cause undue financial hardship to the family support system, Financial Assistance may still be considered at the FC's discretion. The hospital may pull a credit report or supplemental information to confirm data provided to the hospital on the application as long as there is a signature under the certification section of the application. If the guarantor's gross annual income falls inside the matrix, they are considered medical indigent and eligible for financial assistance write off.
- 8. Notification Period:** The period of time during which FMDH will make every reasonable effort to inform the patient of the availability of financial assistance under this policy prior to initiating extraordinary collection actions. This period shall be from the date of service until 120 days after FMDH provides the patient with the first billing statement for the care provided.
- 9. Patient(s):** The person who FMDH provides services and/or the person who is legally responsible for payment for such services.

- 10. Dual Eligible:** Medicare beneficiaries who receive Medicaid assistance, including those who receive the full range of Medicaid benefits and those who are Qualified Medicare Beneficiaries (QMB), Specified Low Income Medicare Beneficiaries (SLMB), and Qualifying Individuals (QI).
- 11. Presumptively Eligible:** There are instances when a patient may appear eligible for financial assistance discounts, but there is no financial assistance form on file due to a lack of supporting documentation. There might be adequate information provided by the patient through other sources, which could provide sufficient evidence to provide the patient with financial assistance. In the event there is no evidence to support a patient's eligibility for financial assistance, FMDH could use outside agencies in determining estimated income amounts for the basis of determining financial eligibility and potential discount amounts. Presumptive eligibility may be determined on the basis of individual life circumstances that may include:
- a. Homeless
 - b. State funded Prescription programs
 - c. Participation in Women, Infant, and Children Program (WIC).
 - d. Supplemental Nutrition Program (SNAP) eligibility
 - e. Subsidized school lunch program eligibility
 - f. Deceased with no estate
 - g. Mentally incapacitated with no one to act on his or her behalf
 - h. Medicaid eligible, but not on the date of service or for non-covered services
 - i. Dual Eligible: Medicare beneficiaries who receive Medicaid assistance, including those who receive the full range of Medicaid benefits and those who are Qualified Medicare Beneficiaries (QMB), Specified Low Income Medicare Beneficiaries (SLMB), and Qualifying Individuals (QI). Discount dependent on level of Medicaid coverage in relation to current discount scale.
 - j. Enrolled in one or more governmental programs for low-income individuals having eligibility criteria
 - k. Incarceration in a penal institution

POLICY:

1. **Patient Notification:** FMDH will make all reasonable efforts to notify a patient regarding the availability of Financial Assistance under this policy by:

5. **Method of Charging:** All patients are billed gross charges. Gross charges are discounted based on income levels, asset versus liability levels, medical indigence, dual eligibility, and the medical necessity of the service. Therefore, gross charges are used as a starting point to calculate discounts to those eligible for financial assistance. If a patient is determined to qualify for Financial Assistance under this policy, the patient's billed charges will be no more than the same Amounts Generally Billed (AGB) for emergency or other Medically Necessary Health Care Services as patients who have insurance coverage. The calculation for AGB is defined above in the definition section of this policy and the percentage is noted on Attachment #1 of this policy.
